

Pioche Weekly Record

THURSDAY, APRIL 6, 1893.

POSTOFFICE HOURS.

8 A. M. to 7 P. M.
SUNDAYS.
6 P. M. to 7 P. M.

No money orders issued or letters registered after 6:30 p. m. and none on Sundays.

JOHN SHIER, P. M.

LOCAL INTELLIGENCE.

Subscribe for the RECORD.

The District Court will convene on Monday next.

Dave Wertheimer is up from Helena on a short visit.

John R. Cook left for Salt Lake on Tuesday's stage, on business, and will be absent several weeks.

To-morrow will be Arbor Day, but no general preparations appear to be made for its observance. The schools throughout the county will close.

Nothing has been said or done yet about contributions from Lincoln County to the World's Fair. Are we to be entirely unrepresented there?

Domingo Barlogand and Miss Aggie Harris were married by Justice A. A. Young, at Delmore's ranch in Round Valley, last evening, and will make their home in Spring Valley.

It would be a good idea for the people of Pioche to start in and remove the winter's accumulation of filth and rubbish from their premises. By doing so, much sickness may be averted.

JOB PRINTING in all its branches, equal in style to any, done at this office.

The Salt Lake Tribune has commenced on the third year's series of articles favoring the building of a railroad to Deep Creek. The articles are good and well-written, but the subject is a little mouldy.

Judge Rising agrees with Judge Cheney in his opinion concerning the constitutionality of the new grand jury law, and he ordered that both to be drawn in Lyon county in conformity with the old statute.

Last Sunday was one of the days in which blood appeared to be on the moon. Drunks were plentiful and three or four scuffling matches took place and threatened serious results for a time, but all finally blew over.

Neither a large crowd nor spirited bidding characterized the sale of the effects of the late Mrs. Dowell last Saturday. The dwelling house was retained by John Shier, no bid at what it is considered worth being made.

The auction sale of household effects at Mrs. Bowden's residence was well attended last Friday and things in most instances brought fair prices. Mrs. Bowden and family departed for Salt Lake on Sunday's stage and will make that place their home in future.

The roads between here and Milford are again fit to travel, and incoming teams are willing to load or back. The Polaris company completed another car of Poorman on last Saturday, and during the week the P. C. Co. secured teams for two and a half cars from the Yuba.

A general dance given at Eagle Valley Tuesday evening was attended by quite a number of the young folks from town here. All the light rigs were pressed into service for the trip and the attendants came straggling back during Wednesday morning, tired, but all reporting a good time.

Those who contemplate visiting Chicago and points East this year should be posted on the various routes of travel. Attention is directed to the time card of the Rio Grande Western Ry. Co. which appears with us this week. The company has issued a neat and tasty souvenir of the World's Columbian Exposition, which is distributed by the Passenger Department at Salt Lake.

Charles L. Roe has about completed arrangements for another run of his copper furnace at Bristol. Coal and other supplies are being put in and the furnace is expected to blow in about the 15th inst. The copper ore on which this run will be made comes from the old Cave mine in Bristol district. It runs high in copper and well in silver and is easily worked. The product this time will be of higher grade than any produced heretofore.

Last Saturday was the day on which the law relating to stray hogs, cattle and other animals was to be put in force under previous notice from the Sheriff. Deputy Freudenthal was busy most of the day with a host of small boys. Stray pigs were hauled and about a dozen were captured and impounded at the lower end of town. Owners for some of the animals appeared and were vociferous in their denunciations of the new law. As a result most of them were released, but will be taken up again and costs charged if found running at large.

The Bachelor Brotherhood picnic to Royal City last Sunday was fairly well attended. The train left the school-house about 10 o'clock in the morning and returned in the evening after dark. Leaky boiler flues in the engine caused most of the day to be put in on the road and made it necessary for the picnicers to walk to town from the furnace in the evening. Barring these items the outing was enjoyed by all; but all old-timers will recognize these incidents as forming a part of every picnic nearly, in early days over the Ballionville road, when it

was necessary to get out and push over the steep grade occasionally.

In some of the mountains back of Lake Tahoe the snow is reported as being thirty feet deep.

The Bristol post-office has been ordered closed, to take effect on the 15th inst. Mrs. McAnish, the postmaster resigned through having to leave the place.

Our business men should insist that the Union Pacific complete the Milford and Pioche branch. This line would pay from the start, and also connect this city with the great mineral districts of South-eastern Nevada.—Salt Lake Journal.

J. G. Brown, Miles Standish, Russ Scott and Cap. Matthews pulled out last Monday with a good outfit, bound for Vanderbilt and Yellow Pine districts, the present land of promise. We hope to hear they have made a ten strike.

A petition is in circulation about town for the appointment of Chas. W. Irish to be Surveyor-General for this State. Mr. Irish was appointed and served under the first Cleveland administration and is recognized as a man well qualified to fill the duties of the office.

The baseballists of Pioche and Panaca, under 19 years of age, have arranged a match game, which will come off two weeks from next Monday. The stakes have not yet been decided upon, but sectional pride will make both sides work to win. Our boys are daily practicing.

Mining Location Notices for sale at this office.

James Stone of Oakland is the latest known victim of the silver brick swindle. Two sharpers got him to invest his entire fortune, \$6000, in a couple of "gold" bricks, which they represented as being worth \$10,000, but which he found after he had made the purchase to be lead and brass. Mr. Stone does not read newspapers.

Julia J. Bernard has been divorced from E. C. Bernard, in San Francisco. She charged that he threatened to kill her because she insisted on wearing a red cloak to a dance one night. She said he might kill her, but the cloak she would wear. He failed to carry out his gory threat, and hence the divorce proceedings.

Teams came in from Beaver during the week and yesterday the last of the Bristol quartz mill was shipped to the gold claims nine miles above Beaver. W. T. Rich has the contract to erect the mill and will leave for that purpose to-morrow. As it is a gold proposition, pans and settlers will not be added until a trial run of the mill is made, to see if they are necessary or not.

The 74th anniversary of the organization of the Independent Order of Odd Fellows will be celebrated here on the 26th inst. by a grand ball at Thompson's Opera House. These gatherings for many years have been regarded as the social events of the season, and the usual care will be exercised in this instance to make this affair second to none of those which have preceded it. The official announcement of it appears in another column.

At their Lodge room in the I. O. O. F. building on Main street, this evening, the Ancient Order of United Workmen will give one of their literary and musicals which of late have been looked forward to pleasantly by those invited. Each member of the Order is permitted to invite one friend only, since more than this would unduly tax the capacity of the hall. Readings, recitations and musical renditions will constitute the programme.

Mrs. Judge Rives has been appointed a member of the World's Fair Liberty Bell Committee, and in a circular letter asks contributions of suitable material and metal for the purpose of casting a bell patterned after the famous old striker of Liberty Hall, which shall be rung daily during the Fair time, etc., and be transported from place to place thereafter whenever the sentiment it teaches is to be advanced. It is a grand idea and should meet with hearty and ready assistance.

A. G. Campbell left Rose Valley last Saturday for Vanderbilt district with two four-horse and one six-horse team loaded with mining supplies. W. B. Stanley followed on Tuesday. A few men will be put to work on the Boomerag and Rose claims, in Vanderbilt, both of which promise well. They are situated about forty-five miles from Ruth, or Good Springs, in this county. When work is ended there, more developments may be made on the heavy lead properties of Mr. Campbell at Ruth, which are already opened up to a considerable extent.

The Mason Valley Tidings is a new paper, edited and published by D. L. Sayre, formerly of the Candelaria Chronicle Belt. It is published at Greenfield, a section of country not dependent on mining for an existence. The editor in his salutatory says he cares nothing about the McKinley tariff, but does want to see silver monetized and our mines working full force. As the grangers of Mason Valley are possessed of more wealth than the miners of Candelaria, there is no doubt but what the Tidings will be a success.

A Wreck on the Milford Branch.

The Salt Lake train which left Milford yesterday morning, when ten miles south of Nephi struck a broken rail, which resulted in a general wreck. Several passenger cars were overturned and a number of passengers more or less injured, but none seriously from what we could learn. John R. Cook, who left here Tuesday morning, was aboard. He wires that he came out without a scratch, in which he is in great luck.

COMMISSIONERS' PROCEEDINGS.

All the members of the Board of Commissioners were present at the regular monthly meeting held last Monday.

After reading and approving the minutes of the previous meeting, the Board was ready for business.

Herman Bressenger, alias Snyder the Tailor, who has been a county charge on a small stipend for a long time, was considered now well able to care for himself, and his name was ordered stricken from the list of indigents entitled to support. The bond of Geo. W. Lee, \$1000, Justice of the Peace at Bunkerville, with J. S. Hustaman and Geo. Allen as sureties, was approved.

Two petitions were presented from Helene, both numerously signed, a number of residents having signed both papers, asking that a Justice of the Peace be appointed for that place. One petition designated the name of J. A. Denton, the other of Samuel Reed, as a desirable party for the appointment. These Helene residents recognized the order of the Board made two months ago abolishing the office of Justice at Helene, as valid, though the township itself was not also abolished. If the Commissioners can abolish any one office and call for the resignation of the incumbent, they can do likewise in any other case. As a matter of fact the powers of the Board do not extend so far. In the matter of appointment, however, after some discussion, Samuel Reed was appointed to the office, since he is always at Helene, while Mr. Denton's business requires his presence frequently at Pioche. Bond was fixed at \$1000, and required to qualify within thirty days.

The list of allowed claims will be found in another column.

The bills of W. J. Dooley and W. L. Cook, each for \$15.00 for services as members of the Board of School Examiners, were rejected.

Under the order made last month in the matter, sealed proposals to do county newspaper work, no job work included, were submitted by the Record Publishing Company and by the Lode Publishing Company, the contract to run for one year. On opening the bids, the result of competition in business was observed. The contract was awarded to the Record at \$17.00 per month, the Lode bid being \$35.00 per month. The county materially benefits by this contract, which brought a proposition from John Shier that sealed proposals be received at the next meeting for furnishing drugs and medicines by the month to indigents. An order was entered to that effect, but no time stated for the contract to run.

By circular letter, all the counties in the State have been requested to appoint a delegate to attend the Trans-Mississippi Congress which will meet at Ogden on the 24th inst. On motion, W. S. Godbe was appointed to represent Lincoln county, the Clerk of the Board to duly notify the gentleman of the same. The funds of the County Treasury were counted and found correct, upon which the Board adjourned.

HELENE NOTES.

Arrivals in the district now exceed the departures and several claims which have lain untouched all winter will soon be worked again.

Cassady and Conaway's claim, the Little Emma, still holds its own on the recent strike, and ore shipments may soon be looked for.

Al. Liston and wife will run the Cliff Springs station this summer, while the boys will farm the ranch in the Wash in connection with it.

I. N. Garrison is taking charge entirely of the saw mill, delivering the product at Helene, and marketing it generally from that point. Logging still goes on.

Our town is dull and quiet, but those of our residents who visit the county seat return with the impression that generally there is not much difference in the two places as far as business activity is concerned.

Mr. John Longmaid passed most of the week with us looking generally over the district. He expresses himself as well pleased with the general outlook and believes work and depth will develop valuable mines here, the work thus far done being little more than good prospecting work.

Nobody here believes that the Board of County Commissioners had any right to abolish the office of Justice of the Peace as they did two months ago, but as the matter was then of no great importance, no particular objection was made. An easy way to right the matter is to ask the appointment of another officer. Petitions for the appointment of J. A. Denton, our old Justice and for Samuel Reed, went in to the Board last week. We are entitled to the protection of the laws here without having to go to Pioche, and one or the other of these gentlemen will certainly be appointed.

Nevada's World's Fair Exhibit. The Silver State says that James A. Yerington, one of Nevada's World's Fair commissioners, passed through Winnemucca the other day on his way to the eastern part of the State. Mr. Yerington is a hustler and it will not be his fault if Nevada is not creditably represented at the big fair. Among the interesting exhibits for which he has arranged will be oranges, lemons and other semi-tropical fruits and a bale of cotton raised on the Colorado river in southern Lincoln county. This will indeed be a novelty, and affidavits will be required to prove that they are products of Nevada, as this State is generally looked upon as being capable of producing nothing but sagebrush and jackrabbits.

The commissioners of Esmeralda county have appropriated \$250 for a special county exhibit.

NEW LAWS.

To Provide for the Admission of Certain Persons Into the Nevada State Insane Asylum.

SECTION 1. It shall be the duty of the District Judge in each Judicial District of the State, upon the application of any person under oath that any person within said district who has been a bona fide resident of the State for more than five years and of the county wherein he is at the time residing for one full year preceding the making of said application, is an idiot or feeble-minded person, to cause such person to be brought before him at such time and such place as he may direct, and the said Judge shall also cause to appear at such time and place such witnesses as he may deem proper and one or more licensed practicing physicians. Said physicians shall proceed to examine the person and the witnesses so brought before said Judge, and if said physicians, after careful examination, shall certify upon oath that the charge is correct, giving their reasons therefor, and if the District Judge is satisfied that such person is an idiot or feeble-minded person and is incompetent to provide for his or her own proper care or support, and has no property applicable for such purpose, and no kindred in the degree of husband or wife, father or mother, child, brother or sister living within this State of sufficient means or ability to provide properly for such care and support, and is further satisfied that it will be for the best interest of said indigent and the county of which he is at the time a resident he shall cause the said indigent, idiot or feeble-minded person to be conveyed to the Insane Asylum of this State at the expense of the county of which said person was a bona fide resident during the period of one year next preceding the making of said application, and placed in charge of said Asylum, together with a copy of the complaint, commitment and physicians' certificate, which shall be in such form as the Board of Commissioners for the Care of the Indigent Insane of the State of Nevada may prescribe.

SEC. 2. The county of which any person committed to said Asylum, under the provisions of section one of this Act, was a bona fide resident during all of the year next preceding the making of application for his or her commitment, shall pay into the Treasury of the State of Nevada, quarterly, on the first Monday of January, April, July and October, from and over after such commitment, the actual expense of maintaining and keeping such person at said Asylum, for which said county shall be liable to the State of Nevada, the amount of said expenses to be certified to the Board of Commissioners of such county by the Superintendent of said Asylum.

SEC. 3. All former Acts, insofar as they are in conflict with or repugnant to the provisions of this Act are hereby repealed.

NEVADA NOTES.

There is an opening here in Greenfield for a tinsmith, a jeweler and a tailor.—Tidings.

The Tribune says that probably not in the history of Carson has there been so many idle men as at present.

William Prisk and Mrs. Rebecca Robinson, residents of the Comstock for over twenty years, died in Virginia City last week.

Assemblyman Wheeler of Eureka is said to be the only member of the legislature who declined to accept the "courtesy" of free passes on the railroads.

The new preacher will be here before long. It is said that he is a powerful exhorter and can make the hair of impatient sinners get up on its hind legs. He is also handy with the fiddle, which will help out.—Lundy Index.

The Reveille says that Battle Mountain, although over twenty years old, has never had a church, and it calls upon the people of Austin to lend a helping hand to the suffering habitants of Fighting Eminence in furnishing a spouting shop for sky pilots.

The Virginia Chronicle learns from official resources that the Carson & Colorado Railroad is to be extended from its present terminus at Keeler, not to Mojave, as has frequently been stated, but to Los Angeles, and from there to tidewater at Port Ballona, situated three miles south of Santa Monica.

When Sol Hilp returned to his constituents in White Pine he was received with fireworks and music and all because some wag had sent word ahead of him that he had passed a bill removing the State Prison to Ely. He didn't get on to the joke until after he had treated the crowd.—Reno Gazette.

THE MILKMAID UP TO DATE. "Where are you going, my pretty maid?" "I'm going a-milking, sir," she said. "Well, how does it come you are dressed in silk?" "Oh, sir, I am going for condensed milk!"—New York Record.

Webster's Dictionaries. G. & C. Merriam Co. having won their suit against the Texas Sittings Co. of New York, for offering a 40 years old reprint of the edition of Webster's Unabridged as a premium for subscribers for their paper, are devoting their attention to several other suits of a like nature now in the courts—the Topka Capital Co. of Topeka, Kansas, being one of the latest. They claim they are compelled to do this in justice alike to the public and to themselves and have therefore given directions to their attorney to prosecute in every case where a publisher makes use of misleading announcements.

J. A. CLARK, Clerk.

FROM BULLIONVILLE.

No further bad weather is anticipated this Spring.

Wood and other supplies at the mill are well ahead.

Miss Henrietta Werner of Pioche visited Mrs. W. S. Godbe here for several days early in the week.

The old store building has been thoroughly renovated and will soon open with a first-class assortment of general merchandise.

The large fifty ton tanks which will replace eight small ones now in use at the Bullionville works, are on the way from San Francisco and advices of their shipment from Milford here are daily expected.

The output of the leaching plant has been increased of late due to higher chlorinations being secured and careful work in general. All first-class sulphides are now melted into bars before shipment, while the wash water, or second class sulphides, are shipped after being dried, only. A shipment netting some \$4500 was made last Saturday, which will assist materially in getting in shape for an increased output.

Proclamation of Arbor Day.

EXECUTIVE CHAMBER,
CARSON CITY, NEVADA,
February 27, 1893.

Our Statutes have wisely provided for one day in each year to be devoted to the planting of trees, shrubs and vines in the adornment of the highways, around the homes of the people and about the public parks and grounds. Therefore, I, Roswell K. Colcord, Governor of the State of Nevada, do hereby proclaim as Arbor Day, Friday, the seventh day of April, A. D. 1893.

I heartily recommend an appropriate observance of the day, by the people of the State, and particularly by the public schools. Let it be a spring festival for the school children, celebrated by the holding of such public exercises and ceremonies as shall be in harmony with the character of the day so established. Nothing in this proclamation shall be so construed as to make the day a legal holiday so far as courts and civil contracts are concerned.

ROSSELL K. COLCORD.

ALL SORTS.

A bill has been introduced in the Minnesota Legislature to compel Chinamen to wear their shirts on the inside of their pants.

Barbers in Ohio are agitating for a law which shall make it legally possible for a white barber to refuse to shave a colored man.

Hobson—They say one half the world does not know how the other half lives. Robson—Do they? Well, the man who wrote that never lived in a small town.—Exchange.

Ladies, if you wish smooth hands, go to the drug store and get three drams of powdered borax, three-eighths ounce of glycerine and six ounces of rose water. Mix well together and apply frequently.

"I notice that your husband has never much to say in the morning when he has been out late at night," said the wife's mother. "No," was the reply of the wife, "he's morn then, extra dry!"—New York Press.

In a Nebraska town a short while ago a Mr. Liver married a Miss Shanks, Elder Shanks officiating. A newspaper commenting on the marriage wished that Mr. Liver would with all his heart protest the Shanks he had gained by the aid of elder Shanks.

An old maid has observed that few men have the slightest idea how to fold a baby. We admit she is about right, says an exchange, but just wait until the baby is 16 or 17 years old—that is if it is a girl baby.

An Alabama church is split in twain because at a hugging bee to raise funds to pay off the mortgage, a farmer, after paying a quarter, was bludgeoned and allowed to hug his wife twenty minutes. He has sued the trustees for fraud and his wife has gone to live with her mother.

THE MILKMAID UP TO DATE.
